# SERVICES

For Over a Decade, We've Been Delivering Service and Value to the B2B and B2C Communities.

## Website Design & Development

DT designs world class websites with full-cycle development including requirements gathering, design, mobilization, implementation, quality assurance, maintenance, and support.

## Custom Software Development

Powerful, one-of-a-kind software development solutions intended to meet unique demands to deliver successful solutions that accord with all the specified requirements while meeting time and budget constraints.

## Mobile Application Development

DT offers native mobile application development services for Android, iOS and Windows Phone and responsive application design compatible on tablets, smart phones, and other mobile computing devices.

## Cloud Migration

Our seamless and safe cloud migration process is centered-around 5 phases which includes planning, scheduling, infrastructure pre-migration, implementation, and transition to the cloud utilizing Amazon Web Services, Red Hat, Rackspace Cloud, and other platforms as a service technologies.

## Custom Programming

Whether projects require WordPress, Joomla, Drupal, or any other CMS, DT can provide interface customization services that meet specifications and requirements.

## Content Management System Customization

Our programming engineers are proficient in many of the latest programming languages, scripts, and frameworks.

DT provides the lowest total cost of ownership with the quickest turn-around times at the highest quality.

## SOLUTIONS

Business Applications,  
Operational Tools &  
Software Systems

DT develops customized CRM, Lead Management, Database Management Systems, Business Intelligence, and Responsive Web Development Solution

### CUSTOMER RELATIONSHIP LEAD MANAGEMENT

Customization, programming, and feature integrations for SalesForce, Zoho, and Microsoft CRM solutions.

### DYNAMIC AND RESPON- SIVE WEB DEVELOPMENT

Responsive web solutions that include cross compatible database driven applications that work on just about all mobile devices, tablets, and desktops.

### BUSINESS INTELLIGENCE

Advanced analytics, data visualizations, and dashboard development centered-around Big Data, Adobe Analytics, WebTrends, Google Analytics, Oracle, Domo, and other custom application development.

### DATABASE MANAGEMENT SYSTEMS

Relational database management solutions with rich user interface design for commercial and public sectors utilizing databases such as legislation tools, agenda systems, financial presentment services, and more.

## PHP

We specialize in Zend, Cake PHP, and CodeIgniter Model-View-Controller, custom PHP scripting, and WordPress, Drupal, and Joomla CMS development.

## HTML 5

With our UI/UX engineering expertise, we leverage the power of CSS3, Bootstrap, and LESS to ensure workflow and usability are both easy and efficient.

## RUBY ON RAILS

Web-application development project framework for data-base-backed web applications according to the Model-View-Controller (MVC)

## JAVASCRIPT

Javascript expertise utilizing AngularJS, JQuery, AJAX, and JSON.

## JAVA / JSP

We take pride in offering Java software development services to our clients.

## .NET / ASP

Our Microsoft developers have complete knowledge of ASP.NET Web Forms/MVC AJAX XBAP and Single Page Applications (AngularJS, Backbone.js, Knockout.js, Node.js) technologies.

## IOS & ANDROID

We build native apps using Java/C++ (Android), Objective-C / SWIFT (iOS), C# (Windows Phone).

## SQL, MYSQL, AND ORACLE

We offer database technologies that include SQL, MySQL, Oracle, DB2, and Apache HBase. Secure ediscovery solutions available.

# TECHNOLOGIES

Extensive Framework, Scripting, and Programming Language Expertise.

# PAST PERFORMANCE

## FARMERS INSURANCE

DT resources in their personal capacity built & maintained a custom Content Management System (CMS) for Farmers insurance agents. Designed a new award winning, easy to use transactional online system, which included, emerging technology platforms (mobile), content management & review work-flows, with in built tracking & disposition capabilities. The purpose of the CMS was to provide non-technology savvy insurance agents with the ability to manage, edit & update their respective websites.

## PENNYMAC FINANCIAL SERVICES

DT planned and implemented an agile development lifecycle with requirements gathering, technical specifications development, quality assurance, Adobe analytics. DT is also responsible for maintaining the marketing tracking solution for the client, PennyMac.

## AMPLIO TECHNOLOGIES

Designed, developed and maintaining a case management system, including Customer Relationship Management, responsive design & information intake (upload) & dissemination engine.

DT worked extensively with the company and its executives in developing a story and explaining the importance of their product, including messaging.

## COUNTRYWIDE FINANCIAL

DT technical resources previously worked with Countrywide Financial during their transition from Countrywide Bank NA to Countrywide Bank FSB.

DT spearheaded the design and implementation of new features and services, including online customer self service center, live chat, Click to Call; increasing overall customer satisfaction & retention.
